MINOT-SLEEPER LIBRARY—REPORT OF TRUSTEES

The work at Minot-Sleeper library has gone on in the usual manner for the past year. The Dewey Decimal System of classification and cataloging which was adopted by the library a year ago is proving very satisfactory. While it entails slightly more work on the part of the librarian, the simplicity and comprehensibility of the system has greatly extended the usefulness of the library to our patrons. Miss Mary A. Rogers has courteously and efficiently served as librarian, the regular open hours being as heretofore Wednesday and Saturday afternoons and evenings. For an indefinite time beginning January 21, 1935, Monday afternoons and evenings have been added to these hours, it being the desire of the Selectmen and Trustees, in this way to better serve the High School and reading public.

The librarian's report shows the total circulation of books for the year to be 18,794. Of these 11,630 were adult fiction, 2,212 adult non-fiction, 3,540 junior fiction and 1,412 junior non-fiction. Received from sale of old books $12.90 and from fines $29.10. Books added during year 216. Miss Rogers also reported briefly her ten days attendance at the Library Summer School at Claremont in July, where instruction was received in cataloging, classification, and general reference work, and expressed gratitude to the Trustees for making this attendance possible.

For some time the library has been co-operating with the New Hampshire State Library Commission in the loaning of books to our neighboring rural schools. Lists of books desired are submitted by the teachers to the librarian, Miss Rogers, who forwards same to the Com-

mission. Such orders are filled and sent to the local library, which is responsible for the books during the loaning period. This is a service for rural schools only and has thus far been extended to the school in South Alexandria and Elmwood school in Danbury.

On May 8th the Neighborhood Library meeting was held at Minot-Sleeper library. About thirty were in attendance, with eight libraries represented. Addresses and discussions of interest to librarians and trustees made up the programs of the morning and afternoon sessions, and lunch was served at 12.30 at Westfall's restaurant.

The collection of foreign relics with new display case, the generous gift of Mrs. Ira A. Chase, has been placed in the library and has received some interested attention. The donations received by Dr. Pray, committee on collecting pictures and relics, have been arranged in the display cabinet in the vestibule, each having a descriptive card with name of donor. These are a bead chain, an old Satsuma wine cup and a lustre pitcher, gifts of Martha Bartlett Conner; earrings from Mrs. Newell A. Bailey; silk wedding glove and drawing of Dr. Ira S. Chase house from Mrs. Mary A. (Chase) Dodge; and a photograph of a drawing of Bristol Central Square before the fire of July 4, 1861, the gift of Miss Mary D. Musgrove. Also in the reading room will be found the old Welles Forbes Wooden clock, manufactured in Bristol in 1842 and presented to the library by Miss Addie D. Little of Meredith; an old musket made in 1833 and first owned by Richard W. Lakeman of Bristol, presented by T. I. Emerson of Plymouth; and a sampler wrought by E. R. Meserve in 1872, also the gift of Mrs. Dodge. The Trustees are always grateful for such donations and bequests.

The reading room, made possible by the Minnie Maria Day-Jackman fund, is invaluable and makes

available not only some useful reference books but a large assortment of the best magazines which includes: Atlantic, American, American Boy, American Girl, American Forest, American Home, Among the Deep Sea Fishers, Better Homes & Gardens, Country Gentleman, Current History, Child Life, Clubwoman, Christian Century, Cosmopolitan, Dumb Animals, Delineator, D. A. R., Embroideress, Forum, Field & Stream, Flower Grower, Good Housekeeping, Garden Digest, Harpers, Hunting & Fishing, Junior Home, Ladies' Home Journal, Literary Digest, National Geographic, National Republic, Nature, Needlecraft, New Outlook, Parent, Popular Science, Popular Mechanics, Readers' Digest, Readers' Guide, Rotarian, Review of Reviews, Scribners, St. Nicholas, School Art, Scientific American, Tiny Tower, Woman's Home Companion, and Woman's World. The librarian states that the magazines are read a great deal more than in former years not because of increased readers in the library but from the circulation which is now permitted.

With a sincere desire for helpful and efficient service the Trustees respectfully submit this report.

REPORT OF SUPERINTENDENT OF SCHOOLS

To the School Board of the School District of Bristol in the Town of Bristol:

I submit herewith my twelfth annual report as superintendent of schools.

Your attention is directed to that part of the report which states the amount of money to be raised for the support of schools for the ensuing year.

The amount raised last year was $22,568.00. Of this amount $500.00 was to finish the year 1933-34. This left

$22,068.00 for the support of schools for the current year.

In making a comparison of the amounts needed to be raised for the support of schools for the year to come and the current year, the figure $22,068.00 is the figure to be kept in mind. The amount asked for the year 1935-36 is some $1,300.00 above this last named amount.

This increase is due largely to the fact that the budget calls for the introduction of Chemistry and Biology in the high school. If you examine table of four columns showing the amounts expended in 1933-34, the budget for the current year, the amount expended to date, and the proposed budget, you will notice that the salary schedule is greater and the amount asked for new equipment is more than is being spent during the current year.

The increase in the salary schedule is caused by the addition of a teacher to handle the two new subjects, and the amount asked for new equipment is for the equipment needed by the introduction of the two new subjects.

There is a growing demand on the part of the parents for these two subjects, and this is the logical time to introduce them. Physics and physiography are already being taught.

We ought to finish the year with a small balance. The payment of the bond and interest is due to July 1. The money to meet these two items is in the hands of the selectmen, and will not have to be advanced out of the so called "new school money" not available until after July 1. To be able to meet these two items and have something in the treasury is a most comfortable feeling.

EARLE P. FREESE,
Superintendent of Schools.
